

APA did not have any job related injuries or illnesses for FY03.

We have had several workstation evaluations performed and provided the recommended accommodations to the employees affected. This helps to eliminate or reduce the number job related injuries.

We continue to take an active role in participating in the agency OSHA program by attending meetings, providing feedback to managers and employees and also by making the employees aware of safety concerns in the office. We immediately take action to replace, repair or eliminate hazardous conditions in the office, such as hanging wires, overloaded circuits and tripping hazards.

If additional information is needed, please feel free to contact me.
